April, 2009

Dear Columbus Dental Society Member:

This letter is an introduction to Mr. Ken Walls, Client Solutions Innovations (CSI). He recently created a new website for the society; please visit us at [www.columbusdentalsociety.org](http://www.columbusdentalsociety.org).

During my time as your executive director, I have been extremely cautious in endorsing a company which would allow it to become one of our "Corporate Partners." CSI is only the fourth such company. As a review, we work with Commerce National Bank; the bank for business, Infintech; credit card processing and Morning Light Studio; professional photography.

I chose to add Ken to this select list because the business relationship has been top shelf! He spent time during the discovery stage to get a grasp on what we needed on the new site and then went to work to "make it happen." He checked and rechecked with me during each phase as our new website was created. His dedication is impressive and I love the new site.

Please consider Ken when making any decisions regarding development of a new website or a remake of an existing one.

As always, I appreciate your support of organized dentistry.

Sincerely,

Pauline Mowery  
Executive Director
